Projects

DressUp Davao Multi-Vendor Rental Platform for Gowns and Suits 2025 - 2026

Developed a full-stack event attire rental platform using Laravel, MySQL, and the TALL stack, integrating the KiriEngine API to render dynamic 3D previews of gowns and suits for an interactive customer browsing experience.

PCForge Ecommerce Web App 2026

Developed a full-featured tech e-commerce web application utilizing Laravel, React, Inertia.js, and shadcn/ui, incorporating a customer storefront for cart management and an administrative dashboard for order fulfillment, inventory control, coupon rules, and sales analytics.

EduLink CRMS 2025

Designed a centralized academic CRM using ASP.NET MVC and SQL Server to streamline student records, enrollment inquiries, and grade management. The system incorporates role-based access control across staff, teachers, and students while securing authentication pathways against automated attacks using Google reCAPTCHA.

Employee Attendance App 2025

Developed a cross-platform mobile application with Flutter and Firebase to modernize workforce management, enabling real-time check-ins, streamlined leave requests, and interactive monthly attendance tracking.

Fatima DayCare Center 2024

Built a responsive web-based administration platform using Laravel, MySQL, JavaScript, and CSS to digitize daily workflows, simplify student profiling, manage class enrollments, and verify center compliance requirements.
